DRY PLUS

Flexus Dry Plus is model suitable specially for dry and sandy, also for snow and frozen terrain. Fine tread pattern with special side knobs make the ride light, with sure handling in corners. Specially formulated soft tread compound enhances the tyre shock absorption. Extremely low weight, high TPI count, good resistance against flats.

Tubulars	Size	Weight	Pressure	TPI Count <small>Sidewall area / Under the tread</small>
DRY PLUS	28" 32 mm	370 g	max. 4.5 bar (65 p.s.i.)	60 / 90
FLEXUS DRY PLUS	28" 32 mm	340 g	max. 4.5 bar (65 p.s.i.)	210 / 315
