## STRENGTHS

- A performance tire designed for regular and intensive urban use
- A reinforced structure adapted to urban challenges
- An effective and reassuring design

## IN PRACTICE

The Haussmann! With its characteristic design, its onboard technology and its evocative name, the design seems tied to tough conditions and the most hostile boulevards. Its conception is the culmination of the latest Hutchinson innovations in terms of urban tires. Its round balloon brings comfort and handling ability. Its large and low central knobs offer the necessary performance to go far without being stuck to the road. Finally, its fragmented and ridged lateral part brings the necessary grip whatever the conditions.
