

REP'AIR MTB TUBELESS

Rep'Air Tubeless is a repair kit for tubeless tires. It ensures a long-lasting tubeless tire repair. A few drops of glue allows a quick repair of punctures up to 1 mm without removing the tire from the rim. For larger repairs up to 5 mm, the repair is done by placing a patch with a few drops of instant glue. The special formulation of HUTCHINSON instant injectable glue keeps its flexibility to ensure excellent repair reliability regardless of the puncture.

USE	DESCRIPTION	DIMENSIONS	CODE
